THIS IS  
WHERE WE  
DECIDE!

**JUGENDFARM FILDERSTADT**

A free space for children and young people

## NATURE & ANIMALS

Through direct contact, children and young people experience the cycles of nature and have the opportunity to grow up with animals. This strengthens their empathy and self-confidence and teaches them to take responsibility.

## THE ASSOCIATION

As an independent youth welfare organization, our association runs an educationally supervised adventure playground with animals. The youth farm is financially supported by the city of Filderstadt. Nevertheless, the association needs voluntary support. It is only thanks to this commitment that the place with its open activities exists.

## DIVERSITY AS AN ENRICHMENT

Jufa is colorful and our visitors are very different. Cultural diversity, integration and inclusion enrich our everyday life.

## EDUCATION THROUGH EXPERIENCE

We are part of the Filderstadt educational landscape. With us young people expand their knowledge through active action and experimentation. The focus is always on working together.

## SPIELEN FÜRS LEBEN

At Jufa, children and young people can organize their free time themselves and develop their own ideas. They are not alone - they are supported by our social workers.

The youth farm is a meeting place for children and young people - a place that creates space for self-determined and independent activities.

**The layout of the site and all our activities are exclusively for children and young people from Year 1 upwards.**

**Visiting the youth farm is possible without a binding registration, voluntary and FREE of charge.**
